whitepaper 1.0

Launched in October 2022, OwlCat restores integrity to meme coins by **building a Great community and quality brand from the start.**

OwlCat is built on Binance smart chain (BSC) with extremely fast 5-second block times and cheaper gas fees than Ethereum (ETH).

If you missed out on big opportunities like Shiba Inu, Dogelon Mars, and others, before they take off... don't miss OwlCat. We are a community-led project, and our contract is fully renounced. These are the things that we have been trying to grow since day one. **Launched with 2 BNB liquidity**, OwlCat will grow even bigger with the things mentioned above. We will sustain these things as we learn more from the community each day.

How to participate

01

Create MetaMask wallet

Create a MetaMask Wallet using BNB a desktop computer or an iOS/Android mobile device. That will allow you to buy, sell, send, and receive $OWLCAT

02

Send BNB to your wallet

You can buy Binance Coin (BNB) directly on MetaMask or transfer it to your MetaMask Wallet from exchanges like Binance, FTX, KuCoin, etc.

03

Connect your wallet

Access your wallet by clicking 'Connect to a wallet' and selecting MetaMask.

04

Swap BNB for OWLCAT

You can start swapping as soon as you have BNB available! Press 'Select a token' and enter the token address or search for it on the tokens list.

05

Join the OWLCAT Community

Community is everything. You must be engaged. Same as Doge and Shiba, $OWLCAT is 100% decentralized & community driven. YOU are on the team now

Roadmap
